We've all experienced the high fuel costs, expensive entry fees, the thrill of victory and the agony of defeat. Before you start the next show season, take this opportunity to learn from **The Judge** how to prepare and present your horse.

Our clinics are especially designed to help you better understand the event and scoring systems through classroom, video presentation, live work and in depth evaluation of you and your horse. If you are serious about showing and improving your competitive level, please take advantage of this great opportunity.
